ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson
Project Manager
Water Management Branch

FIRST NATION WATER RIGHTS REPORT

BAND: Scowlitz

ADDRESS: P.O. Box 76, Lake Errock, BC, V0M 1N0

CHIEF: Clarence M. Pennier

PHONE: 826-5813 **FAX**: 826-6222

AFFILIATION: Sto:lo Tribal Council

LOCATION:

The Scowlitz Band occupies three reserves situated within the Georgia Depression, in an area both north and northwest of Chilliwack. These reserves range in size from 9.7 to 158 hectares. The Scowlitz reserves include:

Scowlitz No. 1 Squawkum Creek No. 3 Williams No. 2

Of these reserve lands water rights have been issued on Squawkum Creek Reserve No. 3. This is a 158 hectare reserve, which is located on the southwestern bank of Harrison Bay.

The most recent population figures from the Ministry of Finance indicate that the Scowlitz Band's total population, including registered and non-registered members living on and off-reserve, is 213.

The Scowlitz reserves are located within the Georgia Depression in the Coastal Western Hemlock Biogeoclimatic Zone. Coastal Western Hemlock and Amabilis Fir are the dominant climax trees within this zone, although several other species are common. Abundant rainfall and mild temperatures make the forests within this biogeoclimatic zone some of the most productive in British Columbia. The Scowlitz reserves lie at elevations ranging from 0 to 150 metres above mean sea level, and experience climate ranging from an average daily temperature of 0 to -5 degrees centigrade in January, to between 16 and 20 degrees centigrade in July. The average annual rainfall for this area is 100 to 250 centimeters.

The water courses of significance are Sasin Creek and Waluk Brook. Sasin Creek flows southeast through Squawkum Creek Reserve No. 3 before it enters Harrison Bay. Waluk Brook is a tributary of Sasin Creek and flows in a southerly direction within Squawkum Creek Reserve No. 1.

WATER ALLOCATIONS:

There are no records of any allocations made by Determinations of the Board, Indian Reserve Commissioners nor any Orders In Council of the Lieutenant Governor in Council. However, the water rights of the Scowlitz Band have been recorded or affected by two actions of government over the years.

1) Granting of water licences from Federal Government application for licences for the use of water on reserves.

2) Actions to amend, cancel or record as abandoned rights under licence pursuant to provisions in the *Water Act*..

HISTORY, CURRENT STATUS AND NOTES:

The history of water rights, the current status of rights, and notes for the Scowlitz Band with respect to Sasin Creek and Waluk brook are as follows:

History:

Sasin Creek and Waluk Brook

Oct 20, 1937 In accordance with an application made by Eric P. Sawyer, the Comptroller of Water Rights issued Conditional Water Licence 13442. This licence was given a precedence date of June 12, 1937 and authorized the diversion of 0.67 cubic feet of water per second, year round from Sasin Creek for power purpose. The land to which this licence is appurtenant is a power house site on Fractional Legal Subdivision 9 of Fractional Section 29, Township 4, Range 30, West of the 6th Meridian, the power being used on a 1.6 acre parcel of Squawkum Creek No. 3.

Aug 20, 1953 A letter written by William Waluk to the Comptroller of Water Rights stated that regarding Conditional Water Licence 13442:

> *"I am the owner of the land to which the above licence is appurtenant. I beg to notify you of my wish to abandon the above licence..."*

Aug 28, 1953 A letter written by A. F. Paget, the Deputy Comptroller of Water Rights, stated that:

> *"Please note that Conditional Water Licence No. 13442, Sasin Creek, has been abandoned and removed from our registers."*

Dec 1, 1953 In accordance with an application made by William Waluk, the

Comptroller of Water Rights issued Conditional Water Licence 21777. This licence was given a precedence date of September 15, 1953 and authorized the diversion of 3,500 gallons of water per second, year round from Sasin Creek and Waluk Brook for domestic purpose. The land to which this licence is appurtenant is that part of Township 3, Range 30, West 6th Meridian, shown in red on the sketch to Crown Grant with Fee Deposited 223022E, New Westminster Land Registration District.

Note: The area shown in red on the sketch includes a portion of Squawkum Reserve No. 3.

Jan 8, 1954 In connection with Conditional Water Licence No. 21777, a permit was granted to William Waluk, under Section 20, Right of Way over Crown Land (no stumpage fee has been fixed, but in the event of any timber being cut on this right of way the same will be subject to stumpage at current prices plus royalty).

Current Status:

Conditional Water Licence 21777 is the only active licence on Sasin Creek and Waluk Brook. This licence is not for the use and benefit of the Scowlitz Band. This licence authorizes the use of 3,500 gallons of water per day for domestic purpose.

Water Survey of Canada has no records of streamflow on Sasin Creek or Waluk Brook, and there is no other current information on water availability.

Notes:

1. There is no additional information with respect to the rights of the Scowlitz Band on Sasin Creek and Waluk Brook.

OTHER INFORMATION:

Groundwater Records:

Review of the Groundwater Section finds evidence of three wells on the Scowlitz Band's reserves. The wells on the reserves yield quantities of 50 gallons per minute. Further details are attached to this report. The extent to which these wells are utilized at this time is unknown and as provision of this information is voluntary, it cannot be assumed to be complete.

Alternate Water Sources:

The proximity of Harrison Bay to Squawkum Creek Reserve No. 3 presents the potential for water supply to these reserves. In addition, the proximity of Harrison River to Scowlitz Reserve No. 1 and Williams Reserve No. 2 also presents the potential for water supply to these reserves.

At this time the potential for water supply from a municipality is limited as there are no municipal water systems in the proximity of the Scowlitz Reserves.

Water Protection Records:

The Water Protection Section has records of a 2.90 kilometer dyke and bank improvement work along both the Fraser River and Harrison River, along Scowlitz Reserve No. 1. The Kent District maintains the dykes and banks protection.

DEPARTMENT OF LANDS.

CONDITIONAL WATER LICENCE.

Eric P. Sawyer of Deroche, B. C., is

hereby authorized to divert and use water as follows:—

(a.) The source of the water-supply is Sasin creek, tributary of Harrison river.

(b.) The point of diversion is located as shown on the attached plan.

(c.) The date from which this licence shall have precedence is 12th June, 1937.

(d.) The purpose for which the water is to be used is power.

(e.) The maximum quantity of water which may be diverted is .67 c.f.s.

and such additional quantity as the District Engineer may from time to time determine should be allowed for losses.

(f.) The period of the year during which the water may be used is the whole year.

(g.) The land upon which the water is to be used and to which this licence is appurtenant is a power house site on Fractional Legal Subdivision 9 of Fractional Section 29, Township 4, Range 30, West of the 6th Meridian, the power being used on a 1.6 acre parcel of Squawkum creek Indian Reserve No.3 as shown on the attached plan.

(h.) The works for the diversion and carriage of the water are pipe and shall be commenced on or before the 30th day of November 1937 and shall be completed and the water beneficially used on or before the 31st day of December 1938.
